# Insurance Definitions

## Deductible

The deductible is the amount you pay out of your pocket before the plan will begin to pay. Annual deductibles reset each year on January 1st.

## Embedded Deductible

In a health plan with an embedded deductible, no single individual enrolled in family coverage will pay more than the individual deductible amount.

## Copayments

Copayments (or copays) are fixed dollar amounts you are expected to pay to receive certain services such as office visits, procedures, or prescription drugs.

## Coinsurance

Coinsurance is a percentage of costs for health care services that you will be expected to pay once the annual deductible has been met.

## Out-of-Pocket Maximum

The out-of-pocket maximum is the annual cap on the dollar amount you are expected to pay out of pocket for services (including deductibles, copays, and/or coinsurance). Once the annual out-of-pocket maximum is met, the plan will cover 100% of any remaining medical expenses for the year.

# Medical Insurance | BlueCross BlueShield

District 181 continues to offer four medical plans through BlueCross BlueShield of Illinois. The medical plans include prescription drug coverage. Once covered under a medical plan, you pay nothing for preventive care services such as an annual check-up, immunizations, and certain health screenings when provided by an in-network provider.

## HMO

The HMO plans require each covered individual to select a medical group and primary care physician (PCP) from the HMO network. All care is managed and coordinated by your medical group or PCP, and any specialty services provided outside the PCP's office will require a referral. There are no out-of-network benefits.

## PPO HDHP paired with HSA

This medical plan is comprised of two components:

### (1) PPO High-Deductible Health Plan (HDHP)

This plan is the lowest premium cost per paycheck of the medical plan options. The High Deductible Health Plan is a PPO with a higher deductible to meet before the plan begins to pay. With the exception of preventive care, participants are responsible to pay the full cost of medical services, less any carrier discounts, prior to meeting the deductible. Once the deductible is met, the plan will pay 100% of remaining medical costs for the plan year. Enrollment in this plan allows you to open and contribute to an HSA through Health Equity.

### (2) Health Savings Account (HSA)

A Health Savings Account is a tax-advantaged account paired with the HDHP that can be used to pay for qualified medical, dental, and vision expenses throughout the year. Funds in this account may be used to pay eligible expenses for you and your tax dependent(s). The money in your HSA is yours to keep, even if changing plans or retiring. Funds will roll over year-to-year.

## **Preventive/Wellness Exams Covered at 100%**

- Preventive care is one physical exam per year per enrolled member.
- Females get an annual well-woman exam covered at 100% in addition to their annual physical exam.
- No out-of-pocket costs apply - these exams are fully covered *as long as your physician codes them as preventive.*

## **Prescription Drugs**

- Ask your doctor if there's a generic version of any medication you're currently taking or being prescribed.
- Take advantage of the Prescription Savings Programs at major retailers.
- Ask about free samples from your doctor and/or manufacturer rebates.

## **High Cost Scans, X-Rays & Tests**

- MRI, PET scans, CT scans, etc. are less costly at in-network free-standing imaging centers than at hospitals.
- When possible, compare cost options prior to scheduling your necessary services.

## **Emergency Room Alternatives**

The ER is a costly experience for issues that aren't true emergencies. Below are alternatives that can offer quick care at a more affordable cost.

- Doctor's office: for non-life threatening symptoms, call and let them know your symptoms require immediate attention.
- Convenient Care Clinics: use when you don't have a primary doctor or can't get an appointment. Good for fever, sore throat/strep, coughs/congestion, sports physicals, UTIs, etc. Visit [cvs.com](http://cvs.com) or [walmart.com](http://walmart.com) to find a clinic near you.
- Urgent Care: less costly than the ER and can treat sprains/strains, minor breaks, mild asthma, minor infections, rashes, small cuts, burns, etc.

# Dental Insurance | BlueCross BlueShield

## Dental Preferred Provider Organization (DPPO)

The DPPO allows the flexibility to use any dentist, in or out-of-network. Staying in-network will allow your annual maximum to last longer. If you visit a dentist out-of-network, you may be responsible for paying the bill at the time of service and receiving reimbursement later.

Dental coverage focuses on preventive and diagnostic procedures in an effort to avoid more expensive services associated with dental disease and surgery. The type of service or procedure received determines the amount of coverage for each visit. Each type of service fits into a class of services according to complexity and cost. We recommend you request a predetermination of benefits for major services.

# Whole Life Insurance with Long-Term Care | Allstate

When a family loses someone, in addition to grief, surviving family members may suddenly be faced with costly expenses and debts. Whole life insurance offers a defined amount of life insurance coverage locking in the cost at your current age. The face value of the policy never decreases and the cost never increases as long as premiums are paid timely. This policy also has a long-term care benefit that provides financial support to cover the cost of long-term care you might need while you're still living as a result of an accident, illness or aging. This benefit will pay a defined percentage monthly up to a defined number of months to help pay for your covered long term care needs. This policy does not coordinate with any other coverage, so you can still receive benefits on top of any other life insurance you may own or be provided.

## Here's how it works

You enroll in Group Whole Life Complete through your employer. **Premium payments are conveniently deducted from your paycheck automatically.**

### Death

**When you pass away**, your beneficiaries receive the death benefit amount as a lump-sum cash payment.

### Long-Term Care

**If you require long-term care at some point**, you can begin to draw funds from the death benefit to receive a monthly payment that may be used for the cost of that care.

### Financial Emergency

**If you have a financial emergency and need cash**, you can access funds from the cash balance.

## What is the Long-Term Care Benefit?

- **6%** of the **death benefit**
- Payable each month for up to **34 months**

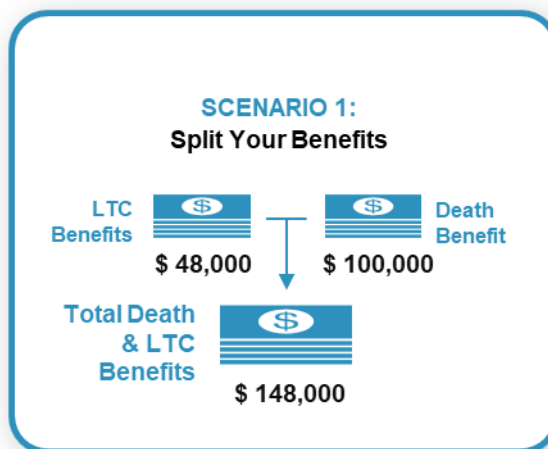

## What about the death benefit?

- It's **RESTORED** to the original face amount of the policy regardless of the amount of LTC benefits paid.

## 100K Policy Scenario

At age 46 John requires eight months of home health care due to an accident.

- **Long-Term Care Benefits** (8 months) = \$48,000
  - \$6,000 x 8 months
- **Remaining Death Benefit** = \$100,000
- **Total Benefits** = \$148,000

## Important Note

- Please call the benefit counselors for more information on plan details and rates.

# Voluntary Accident | BlueCross BlueShield

Since accidents can happen at any time, it's important to prepare for the unexpected. Accident insurance can help pay for out-of-pocket expenses associated with an accident by paying you a benefit for each of the covered injuries you suffer and the treatment you received. This policy does not coordinate with any other coverage, so you can still receive benefits on top of what your medical plan provides. See plan highlight sheet for specific coverage details.

Payments are made directly to you to use as you see fit. They can be used to help pay for medical plan deductibles and copays (if applicable), out-of-network treatments, your family's every day living expenses, or anything else you need while recovering from an accident. Here are some, but not all, ways to trigger a payment from the accident policy:

- **Wellness:** Pays a specific benefit amount for going for a preventive care visit such as an annual physical
- **Treatment:** Pays a specific benefit amount for emergency room treatment, X-Rays, diagnostic exams, physical therapy, and follow-up treatment
- **Ambulance:** Pays a specific benefit amount for ambulance or air-ambulance transportation to a hospital due to injuries sustained in a covered accident
- **Miscellaneous:** Pays a specific benefit amount for concussions, breaks, sprains, burns, dislocations, lacerations, and more

*Note, this coverage applies to accidents that occur on or off the job.*

# Voluntary Critical Illness | BlueCross BlueShield

Critical illness insurance protects your family when you are diagnosed with an unexpected covered condition by providing you with a lump sum cash benefit in the event you or an insured family member is diagnosed with a covered condition. This policy does not coordinate with any other coverage, so you can still receive benefits on top of what your medical plan provides. This plan also pays a specific benefit amount for going for a preventive care visit such as an annual physical. See plan highlight sheet for specific coverage details.

Coverage Amount	
Employee Coverage Amount	\$5,000 - \$20,000 in increments of \$5,000
Spouse Coverage Amount	\$2,500 - \$10,000 in increments of \$2,500, not to exceed 100% of the employee benefit amount
Child(ren) Coverage Amount	\$2,500 - \$10,000 in increments of \$2,500, not to exceed 100% of the employee benefit amount

# Voluntary Hospital Indemnity | BlueCross BlueShield

Hospital Indemnity insurance protects your family when you have a hospital or ICU stay. This policy provides financial protection by paying you a benefit for hospital admission, hospital confinement and ICU care. Benefits are paid based on admission and length of stay for a defined number of days. This policy does not coordinate with any other coverage, so you can still receive benefits on top of what your medical plan provides.

		Plan Coverage
Hospital Admission	Up to 1 day per year	\$1,000
Daily Hospital Confinement (Day 2+)	Up to 30 days per year	\$100 per day
ICU Admission	Up to 1 day per year	\$1,000
Daily ICU Confinement (Day 2+)	Up to 10 days per year	\$100 per day

## Employee Assistance Program (EAP)

# Flexible Spending Account | HealthEquity

Flexible Spending Accounts (FSAs) allow you to set money aside to pay for certain eligible expenses throughout the year. The money is deducted from payroll pre-tax, reducing your taxable income. The FSA plan year aligns with the calendar year, running January 1 to December 31. FSAs have a “Use It or Lose” rule, so be conservative when electing how much to contribute. Three types of FSAs are available:

## Health Care FSA

The Health Care FSA (HCFSA) allows you to contribute pre-tax money for qualified health care expenses that you, your spouse and/or your dependent children incur throughout the plan year. You and/or your dependents do not need to be enrolled in medical, dental or vision coverage through the district to enroll in the HCFSA. You may contribute up to \$3,400 for the 2026 plan year.

Eligible reimbursable expenses include medical, dental and vision plan deductibles, copays, and coinsurance (if applicable), orthodontia expenses not covered by your dental plan, prescription drugs, prescription eye glasses and contact lenses, Lasik eye surgery and more. If there are funds remaining in your HCFSA at the end of the plan year, you may rollover up to \$680 to the next plan year. Any remaining amounts over \$680 will be forfeited.

## Limited Purpose FSA

The Limited Purpose FSA (LPFSA) allows you to contribute pre-tax money for eligible non-medical expenses, such as dental and vision plan deductibles, copays, and coinsurance. LPFSA can be elected in conjunction with the HDHP (and HSA). You may contribute up to \$3,400 for the 2026 plan year. If there are funds remaining in your LPFSA at the end of the plan year, you may rollover up to \$680 to the next plan year. Any remaining amounts over \$680 will be forfeited.

## Dependent Care FSA

The Dependent Care FSA (DCFSA) allows you to contribute pre-tax money for eligible dependent care services so that you can continue to work. Eligible expenses include daycare, before-school and after-school care, babysitters for children under age 13, and more. You may contribute up to \$7,500 for the 2026 plan year. All Dependent Care FSA expenses must be incurred during the plan year. Unused funds will be forfeited.

## Submitting Claims

As you incur eligible expenses, you file a simple claim form (along with copies of your receipts) and are reimbursed for such expenses from the account. Employees who enroll in the HCFSA or LPFSA for the first time will receive an FSA debit card to pay for qualified purchases, eliminating the need to submit a paper claim and wait for reimbursement. If you previously enrolled in the HCFSA or LPFSA, you may continue to use your debit card until the expiration date on the card.

For a full list of eligible expenses, visit <https://www.healthequity.com/fsa-qme>

# Commuter Benefits | HealthEquity

Commuter Benefits allow you to set aside tax-free money to pay for eligible expenses you incur as part of your commute to and from work.

You control your contributions month-by-month. You may contribute up to \$340 per month in 2026 deducted from your gross income earnings to be used for the cost of mass transit such as a bus or train (parking costs are not eligible).
